

## ***Energy 2020 School*** **Program Application**

You and several of your student leaders should first watch the nine minute video that describes the easy-to-organize *Energy 2020 School* program. If you feel it's a project you can undertake for the entire school or a segment of the school, then proceed.

Schools will be notified by August 1, 2011, if they have been accepted to be one of the one hundred schools being provided with this support. If selected, a member of the national staff will be assigned to assist your program committee.

Once you have completed your first *Energy 2020 School* Committee meeting and the *Program Plan and Budget* (budget can be developed after your school application has been accepted) that has been approved by your school administration, then a payment of \$350.00 will be provided. A sample *Program Plans* will serve as your guide. Visit the website to view sample.

After completing your school's program, a 5-8 minute telephone interview will be conducted with you by the national office to evaluate the activities and program services you were provided.

Who Will Participate? (Select One)

Entire School  
Comment \_\_\_\_\_
